

1. Put these numbers in order on the number line below.
Write them into the boxes on the line:

90 45 62 7 23 58

- 2.

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Here is a Hundred Square. We can use it to practice counting on and counting back.

We have circled number 55. Count on from 55 in 5s and circle each number in **RED**.

Now see if you can count back in 2s. Circle each number you count back to in **BLUE**.

3. See if you can do these calculations. Use the number lines to help you and don't forget to put your biggest number first!

$2 + 6 =$

$5 + 9 =$

$25 + 5 =$

$12 + 20 =$

4. Here are some more calculations to try! This time break your numbers up to find the answer. We've done the first one for you to show you what we mean.

$$12 + 23 = \overset{\text{Tens}}{\boxed{10}} + \overset{\text{Units}}{\boxed{20}} \text{ and } \overset{\text{Units}}{\boxed{2}} + \overset{\text{Units}}{\boxed{3}} = \boxed{35}$$

$$24 + 13 = \overset{\text{Tens}}{\boxed{}} + \overset{\text{Units}}{\boxed{}} \text{ and } \overset{\text{Units}}{\boxed{}} + \overset{\text{Units}}{\boxed{}} = \boxed{}$$

$$51 + 27 = \overset{\text{Tens}}{\boxed{}} + \overset{\text{Units}}{\boxed{}} \text{ and } \overset{\text{Units}}{\boxed{}} + \overset{\text{Units}}{\boxed{}} = \boxed{}$$

Now try taking away...

$$37 - 25 = \overset{\text{Tens}}{\boxed{}} - \overset{\text{Units}}{\boxed{}} \text{ and } \overset{\text{Units}}{\boxed{}} - \overset{\text{Units}}{\boxed{}} = \boxed{}$$

An even number is a number you can split into pairs. See if you can sort these odd numbers and even numbers into the right circle below:

6 11 1 14 3 8

15 22 33

Quick fire questions:

Which is the biggest number? 395 or 402 Circle your answer

What is 25 - 11 ? _____

Which of these is an odd number? 46 8 21 60 Circle your answer
